

## How To Make A Reverse Charge Call

### From a public payphone

- Call the operator by dialling 100
- Ask to make a reverse charge call
- The operator will ask what telephone number you want
- The operator will call the number and then connect you to the person you want to talk to

### From any telephone, anywhere in the United Kingdom

- 0800 Reverse is the new way to call reverse charge. Simply dial the numbers that spell 0800 Reverse from any phone, anywhere in the UK. Just hit the seven once, the three once and so on. That's 0800 7-3-8-3-7-7-3.
- You will then be asked to dial the number of the person you wish to call and will also be asked your name – it's that simple.
- It's easy to remember and you'll never need to carry loose change to make a call, or if a payphone won't accept your coins.

Remember - the person you are calling may be charged for the call.
